ksahi4088@gmail.com • +91 6295331089 • Github • linkedin

Skills

HTML, CSS, javaScript, Bootstrap, SASS, React Js, Tailwind CSS

Projects

My Portfolio	2022 – present
<i>This is my portfolio website. It's a multipage portfolio website. The technology i used to make this site are HTML5, pure CSS3, Vanilla javaScript, jQuery based library. This project is pixel perfect responsive for all devices. Currently i am working in this project with a view to adding React Js on it.</i>	
Static Historical Blog website (SASS)	2022 – present
<i>I finished this project recently. I used here all frontend technology but the best part of this project is i used SASS.</i>	
Responsive Dog website(Bootstrap)	07.2022
<i>This is a project by me . It is a static fully responsive website. I used Bootstrap in this project.</i>	
School website(Tailwind based)	04.2022
<i>I had participated in a front end website making event which was organize by Thapa Technical. The best part of this project is i used Tailwind CSS and tailblock . Also some custom css to achieve this template.</i>	
100% Hand coded Markup	02.2020
<i>Only HTML and CSS hand coded by me. This was a PSD template from OS template. This is my first front end project</i>	
Landing Page	11.2020
<i>Used only HTML, CSS, & JavaScript</i>
